**Photo 4.** Photo taken from the well location, facing North. See comments under Photo 2.

Note- Operator has not properly tracked the fill slope, which is only aiding stormwater erosion towards an irrigation ditch.

**Photo 5.** Photo taken from the northern interim reclamation area, facing East. Photo illustrates there is no perimeter stormwater BMP, only a remnant insufficient ditch area along small portions of the perimeter. Red arrow illustrates the irrigation ditch.

Also, there is trash observed within the interim reclamation area.
