1 CA# 166572

Corrective Action: Comply with Rule 606.

Date: 01/16/2023

Response: CA COMPLETED

Date of Completion: 01/10/2024

Operator Comment: The Gettman 14-14 well and associated tank battery were acquired by Impetro Resources, LLC (Operator #10690) in July 2023. Impetro has been unable to determine or identify detailed investigation and/or remediation activities that were performed by the previous operator, beyond the historical information submitted in the documents uploaded to the ECMC database. Impetro is in the production valuation process of the lease to determine whether it will be put back into production or decommissioned. Once a determination is made, Impetro

will provide a Form 27-S within 90-days from the submittal date of this report. If the location is put back into production, the remediation plan will include investigation activities regarding the former skim pit. Should Impetro determine to plug and reclaim the lease, the Form 27-S plan will include the skim pit investigation as well as standard plugging, and abandonment investigation procedures related to facility decommissioning. Form 27, Document #403646420, was filed 1/5/2024.
