General Comment:**CECMC Inspection Report Summary**

On 05/16/2024 at approximately 12:10 hours, I, Compliance Specialist, Wayne Smelser
Conducted an on-site inspection at TEP ROCKY MOUNTAIN LLC BAILEY COMPRESSOR STATION.
Facility # 412030 in Garfield County Colorado.
Location is within High Priority/Density/Black Bear Habitat areas.
While there, I observed normal production operations.

During this inspection the following compliance issues were observed:

1. Signs/Marker - Multiple tanks lack required labeling/do not comply with CECMC labeling rules with a CA date of 6/15/2024
2. Housekeeping - Open ended piping on 3 tanks/wildlife hazards/lack wildlife protection with a CA date of 05/23/2024
3. Equipment - PRV vent lines do not comply with CECMC pressure safety device rules with a CA date of 05/23/2024
4. Stormwater - Failure to maintain chemical BMP - Chemical tank containment full of fluid/fluid overflowed containment & spilled on the ground with a CA date of 05/17/2024

A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with CECMC rules.

This is a summary of inspection report.

Reclamation - Storm Water - Pit**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Compaction						Light compaction in small areas
Other						Stockpiled gravel on location
		Compaction				
Rip Rap						Rip Rap Run
		Gravel				Sparse to none
		Ditches				
				Material Handling And Spill Prevention	Fail	Chemical drums with no BMP's
				Material Handling And Spill Prevention	Fail	Failure to maintain chemical BMP
Gravel						Sparse to none in areas
		Culverts				
Berms						
Ditches						

Comment: 1. Failure to maintain chemical BMP - At approximately 12:20 hours observed chemical tank containment full of fluid & the fluid had overflowed the containment & spilled onto the ground. At approximately 13:20 hours called Mike Gardner with TEP & informed him of the observed compliance issue & that it was a 24 hour corrective action. Further informed him I had spoken to TEP employee on location & he was in the process of evacuating the fluid from the chemical tank containment during inspection.

Also observed chemical drums with no BMP's - however during inspection TEP employee transferred drums to a metal containment

Corrective Action: **Comply with CECMC Stormwater rules**

Date: 05/17/2024

Pits: ☒ NO SURFACE INDICATION OF PIT
