Comment: This location does not comply with Rule 1004. Groundwater monitoring wells previously observed in FIR (doc #673504451; conducted 06/13/2017) do not appear to have been removed. All oil and gas related equipment (e.g. groundwater monitoring wells for use in remediation project) will need to be removed. The former access road, well location and tank battery are located within a land use change to a housing development. Refer to attached inspection photos.
