Hi Lilah,

Since the nest is unoccupied, we have no further concerns with you proceeding. Thank you for reaching out and confirming this with us.

Hi Lexi,

I previously consulted you (in March 2024) about upcoming P&A work at the Oskarson wells. This work was initially planned to begin in August, after the eagle nesting season. However, since the nearby eagle nest (Sullivan 2 Ditch Nest) is currently unoccupied, we would like to begin earlier to complete as much work as possible before the next nesting season begins on December 1st.

Please let me know if CPW is ok with the plan to proceed prior to August 2024 and/or if you have any questions. Thank you!

Oskarson wells:

OSKARSON 4-6-33

OSKARSON 4-4-33

OSKARSON 4-8-33

OSKARSON E UNIT 01

OSKARSON 23-33

OSKARSON 24-33

OSKARSON 13-33

OSKARSON 2-8-33*

*Note: the 2-8-33 well was not on the previous consultation list but has since been added to the PA schedule and is located on the same pad as four of the other Oskarson wells (Loc ID 322858), so it has been added to this follow-up consultation list.

Previous BMP from March 2024 consultation:

Operations are currently scheduled outside the bald eagle nesting season (Dec 1 - Jul 31). If operations cannot be completed outside the nesting season, the operator will conduct a follow-up consultation with CPW.

Please let me know if you have any questions.

Thank you!

Subject: Re: Consultation Requests (Spreadsheet)

Hi Lilah,

Thank you for the notice of your planned P&As. After our review, CPW agrees with your listed BMPs as long as they are within the agreed-upon pre-Form 6 CPW consultation HPH areas.

Please let me know if any questions arise. Have a great rest of your day.
