Inspection Photos

Operator Name: CAERUS PICEANCE LLC - 10456

Location ID: 335928

Photo 8: Photos taken from the southeast end of the working pad surface. Photo shows outlet leading from the working pad surface to the sediment trap has not been installed with armoring per good engineering practice. Stormwater would discharge directly onto the bare slopes to the trap, and will likely result in to erosion, degradation and sediment transport. Advise maintenance prior to erosion issues and to ensure BMP is adequate to minimize erosion, degradation and sediment transport.
