Comment:

<p>It was observed in this inspection that the Location is progressing towards ECMC 1004 Final reclamation requirements- vegetation observed predominantly Brome grass mixed with pockets of western wheatgrass. Sagebrush recruitment is also evident. Houndstongue individuals also observed- weed management advised to prevent further spread and establishment of weeds.</p> <p>Continue to monitor/manage the location for weeds and stormwater. Conduct reclamation work as necessary to ensure site meets 1004 standards.</p> <p>Location is Federal Surface- Final passing by the ECMC is subject to Federal Approval. Upon meeting all Federal final reclamation obligations per the BLM, Operator shall submit the approved FAN, and the final Federal Inspection.</p>
