Comment: This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within twelve months of plugging on non-cropland. Gravel has not been removed, debris remains and location has not been recontoured. Reclamation activities should have been completed by 2/17/2024. Active remediation should not preclude the commencement of final reclamation activities.

Corrective Action:	<p>Comply with Rule 1004. All areas compacted by drilling and subsequent oil and gas operations which are no longer needed shall be cross-ripped to a depth of eighteen (18) inches. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil.</p> <p>There is no corrective action date due to this being out of compliance. Final reclamation activities shall be complete as soon as environmental conditions will permit.</p>	Date _____
