**General Comment:**

This is a Construction and Stormwater Inspection in response to Form 42: Notice of Construction- Document #403826659.

Location				
<b>Lease Road:</b>				
Type	Other			
comment:	Vehicle trackout was observed on southbound WCR 51, originating from the location's main access road. On 06/26/2024, ECMC Staff contacted Operator representative (R. Meisner) via email and later contacted another representative (B. Winter) while in the field at another location to inform of the trackout issues. Refer to attached inspection photos.			
Corrective Action:	Maintain vehicle tracking BMPs on the oil and gas location to comply with rule 1002.f. (2)F. Additionally, if material is tracked onto county or public roads, contact the appropriate authority.		Date:	07/03/2024

Comment: Temporary BMPs (filtrexx wattles) have been installed around the entire perimeter of the location during construction activities. More permanent BMPs should be installed upon the completion of pad construction. A follow-up stormwater inspection will be conducted at a future date to ensure compliance with Rule 1002.f. standards. Refer to the ECMC Comments section for additional stormwater compliance information. Refer to "Location - Lease Road" comment and corrective action for vehicle trackout.

Corrective Action:  Date:

**Pits:** ☐ NO SURFACE INDICATION OF PIT

**ECMC Comments**

Comment	User	Date
Per Rule 1002.f., oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation. BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004. Operators shall employ BMPs, as necessary to comply with this rule, at all oil and gas locations, including, but not limited to, well pads, soil stock piles, access roads, tank batteries, compressor stations, and pipeline rights of way. BMPs shall be selected based on site specific conditions, such as slope, vegetation cover, and proximity to water bodies, and may include maintaining in-place some or all of the BMPs installed during the construction phase of the facility. Where applicable based on site-specific conditions, operators shall implement BMPs in accordance with good engineering practices.	edwardsond	07/02/2024
