Comment:

Operator has performed final reclamation activities by removing all equipment from location. ECMC Staff did not perform a compaction test. The well location is within fallow cropland and at the time of inspection dominated by Kochia; therefore, a future inspection will be conducted during the active crop growing season to ensure vegetative compliance. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1004.

The associated tank battery will be addressed with a separate field inspection report under Location ID 431588.
