General Comment:

On 7/31/2024, Reclamation Specialist Trujillo conducted a final reclamation inspection at Caerus Piceance LLC's Texaco Fee #6217 Location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

-Weeds

-Fence in disrepair

Refer to the Reclamation section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

Corrective Action: _____ Date **08/17/2024**

Comply with Rule 606.c- Oil and Gas Locations will be kept free of all Undesirable Plant Species. Ongoing weed required until Location receives a passing final reclamation inspection.

Maintain Fence at Location entrance.

Comply with any outstanding COAs pursuant to Form 27 #403807854.

Overall Final Reclamation

In Process

Well Release on Active Location ☐Multi-Well Location ☐**ECMC Comments**

Comment	User	Date
<p>Pursuant to Form 6(s) 402879150 well was P&Ad 11/3/2021. Operator submitted Form 27 #402862347 for the decommissioning of O&G Facilities on 11/4/2021. Per remediation proj. #21158, Table 915-1 exceedances were discovered; remediation has remained "active" for the past 3 years.</p> <p>It was observed in this inspection that production and surface equipment have been removed from the Location; no other reclamation work including, but not limited, removal of gravel, compaction alleviation, recontouring/regrading, replacement of topsoil and revegetation activities have been performed, and appear to be postponed while remediation is "in process".</p> <p>It was also observed that Undesirable Plant Species have established throughout the Location; species observed include Kochia, Russian thistle, etc... and the orange safety fence installed near the location entrance is also in disrepair.</p> <p>This Location is currently out of compliance with ECMC 1004.a requirements to perform Final Reclamation within twelve (12) months on non-crop land after plugging a well. However, the reclamation status will be considered "in process" until remediation proj. #21158 receives final closure, at which point Final Reclamation pursuant to 1004.a will be required to be completed. Operator shall make every effort to ensure the Remediation Project is closed an a reasonable timeframe.</p>	trujilloam	08/02/2024
