8/16/2024 at 11:17 hours arrived on location to observe scheduled plugging operations. At this time no rig or plugging equipment were on location, spoke to a Chevron lease operator on location, he called someone that was over plugging operations and informed me that well SKR 598-35-AV-10 was plugged back in May of 2024 and were waiting to cut casing and remove wellhead until they were completed with all plugging operations. Documents show plugging operations starting on 8/16/2024 at 07:00 hours Spoke with Chevron consultant Dallas Russell 8/19/2024 and he confirmed P&A date was 5/11/2024

Corrective Action: **Contact engineering.**
