Qtrqr: NWN Sec: 2 Twp: 7N Range: 93W Meridian: 6
W
Latitude: 40.592046 Longitude: -107.807638

CORRECTIVE ACTIONS:

1 CA# 198450

Corrective Action:

Date: 10/15/2024

Conduct reclamation in accordance with 1004 rules at the Location/Road including, but not limited to removal of utility equipment/culverts/gravel material, compaction alleviation, recontour/grading and establish vegetation with total perennial, non-invasive uniform plant cover of at least 80% of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district.

Comply with Rule 1002.f and ensure erosion controls are implemented to stabilize the seeded soil. Comply with Rules 1004.e and 606.c: Oil and Gas Locations will be kept free of all Undesirable Plant Species. Ongoing stormwater and weed management required until Final Reclamation has passed.

Response: CA COMPLETED

Date of Completion: 09/11/2024

Operator Comment: The owner wants to keep all graveled roads. Weed spraying and reseeded was successfully completed in June 2024. However, due to unforeseen circumstances, including unusually dry conditions and lack of rainfall, weeds reemerged before a scheduled inspection. Given the approaching change in season, reapplying the spray before spring of 2025 would be inefficient. The land owner has requested that the gravel remain on site. The power poles seen on the edge of pad do not belong to pad and all signage has been removed.

ECMC Decision: _____

ECMC Representative: _____

OPERATOR COMMENT AND SUBMITTAL

Comment: Operator would like to be notified prior to inspection to be on site at time of inspections

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
