<p><b>ECMC Inspection Report Summary</b></p> <p><b>WEATHER CONDITIONS:</b> sunny, dry ground, On Wednesday, September 11, 2024 at approximately 12:15, I, Inspector Brittani Santistevan, conducted an on-site inspection at MARVIN E. SCHUTT UNIT #1 (KP Kauffman Company Inc.), at location ID: 318480 in WELD COUNTY, Colorado. While there, I observed a TA pumpjack. During this inspection the following possible compliance issues were observed:</p> <p>1. It appears to be overgrown vegetation surrounding the ancillary equipment and pumpjack fencing. Comply with Rule 606. (Corrective Action Date: October 16, 2024) See attached photo #2-5.</p> <p>2. It appears the well is overdue for Mechanical Integrity Test. MIT requires 10-day notification via Form 42. Well plugging requires an approved Form 6 Intent to Abandon to Plug Well. Produce well after performing successful mechanical integrity test per Rule 417 or plug well. To maintain shut-in status, the well must be able to demonstrate ability to produce without mechanical intervention. (Corrective Action Date: April 26, 2024)</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	santistb	09/16/2024
