CORRECTIVE ACTIONS:

1 CA# 198760

Corrective Action:

Date: 10/15/2024

Comply with 1004 rules and conduct reclamation at the access road including, but not limited to removal of gravel material/culverts, compaction alleviation, recontour/regrading and establish vegetation with total perennial, non-invasive uniform plant cover of at least 80% of pre-disturbance or reference area levels and comply with Rule 1002.f and ensure erosion controls are implemented to stabilize the seeded soil.

Ongoing stormwater and weed management required- continue to monitor and manage Location until Final Reclamation has passed.

Response: CA COMPLETED

Date of Completion: 09/11/2024

Operator Comment: The owner wants to keep all graveled roads. Weed spraying and reseeding was successfully completed in June 2024. However, due to unforeseen circumstances, including unusually dry conditions and lack of rainfall, weeds reemerged before a scheduled inspection. Given the approaching change in season, reapplying the spray before spring of 2025 would be inefficient. The land owner has requested that the gravel remain on site. All signage has been removed.

ECMC Decision: **Not Approved**

ECMC Representative: See "ECMC Email Correspondence to SWN" document attached.

ECMC Supervisor: See "ECMC Email Correspondence to SWN" document attached.
