Description

Operator Comments:

KMOG is requesting approval to install two permanent 7 Compression electric gas lift compressor skids at the Windsock 15-21HZ (location 437439) to enhance production through artificial lift.

Piping will be installed from the compressor to the wellheads to facilitate gas injection.

The setup and installation of the equipment is expected to take approximately one day, and will run continuously, 24/7. If the compressor skids are no longer required in the future, they will be removed.

This operation is not expected to result in traffic, light, noise or visual impacts.

Please see the attached plot plan drawing for details.

The estimated installation start date is November 1, 2024.
