Hi Laurel,

Is there an update on this? Has KPK made any progress in addressing the issues?

Good evening, Lexi,

I stopped by this location today. No crews were on location at the time of inspection. No netting/wildlife protection equipment has been installed. The excavation has grown, free product was visible on groundwater within the open excavation and stained soil remains visible within the open excavation. I'll include you on my followup inspection.

Let me know if you have any questions in the meantime,
