Comment	User	Date
<p>There is an Active Remediation Project # 24826 for the well location.</p> <p>Form 27 Initial Document # 403147571 was submitted on 8/29/2022. Operator states the following in the Initial Action Summary; Strachan Exploration proposes to conduct closure operations of the State G#1 wellhead/location. Plugging operations will begin after the harvest in Q3/4 2022. Cut and cap operations will be performed a minimum of 5 days after the PTA is complete as per COGCC rules. we will perform appropriate site investigation and field screening pursuant to findings according to COGCC series 900 rules. PID surveys will be performed based on visual inspection. Should soil samples be needed based on visual inspection, they will be collected and analyzed in accordance per Rule 915, following the sampling guidelines in 915.e.(2). All waste generated during operations will be disposed of properly as directed in Rule 905 and 906. There are no facilities on this location.</p> <p>Operator shall implement Quarterly reporting for this remediation project and provide a standalone implementation schedule identifying when decommissioning activities will commence.</p> <p>Operator shall submit a Supplemental Form 27 for Remediation Project # 24826 by 10/7/2024</p>	sanchezcc	09/26/2024
Unable to access location due to Corn Field	sanchezcc	09/26/2024
