Comment:

<p>Operator submitted Form 4 Sundry Notices for the above wells stating they have not been drilled; therefore, the wells will be released on a location that was active for the tank battery facility. Since the tank battery facility was at one time active and has now been decommissioned the location will remain in process while the wells are released. A future inspection of the location will be conducted to evaluate the final reclamation for the tank battery facility that shares the same location ID. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p>
