Operator  
Comment:

Kinder Morgan submitted a Form 4 Sundry Notice requesting a Rule 502.b. surface owner final reclamation variance on 9/13/2017. ECMC approved the variance on 8/10/2020 and attached a Condition of Approval that was contrary to the intent of the surface owner variance request, noting that "graveling will increase the likelihood of erosion and runoff."

Kinder Morgan recognizes and utilizes the application of gravel as a control measure to achieve final stabilization standards through its CDPHE Storm Water Permit. Kinder Morgan is engaged with outside counsel in order to prepare and resubmit a Rule 502.b. surface owner variance request in support of the surface owner's desired final land use, which is to retain an improved graveled surface for equipment storage.
