Reclamation - Storm Water - Pit**Interim Reclamation:**

Date Interim Reclamation Started: _____ Date Interim Reclamation Completed: _____

Land Use: IRRIGATED

Comment: _____

1002 SITE PREPARATION AND STABILIZATION

1002a. FENCING _____

Comment _____

Corrective Action _____

Date _____

1002b. SOIL REMOVAL AND _____ Pass _____

Comment _____

During the inspection it was observed that the production/tank facility had been constructed and additional topsoil stored along the wellhead pad area in compliance with Rule 1002.b.

Corrective Action _____

Date _____

1002c. PROTECTION OF SOILS _____ In Process _____

Comment _____

At the time of the inspection the additional topsoil and original topsoil stockpiles had been stabilized with crimped straw, though there was no germination of desirable vegetation. See inspection photos for details.

A follow-up inspection will be conducted during the next growing season to evaluate protection of the topsoil stockpile.

Corrective Action _____

Date _____

1002E. SURFACE DISTURBANCE MINIMIZATION _____ In Process _____

Comment _____

At the time of the inspection the location facility pad had been constructed and install of equipment appeared to be in process. The facility pad area cut slopes have yet to be stabilized and are dominated by bare soil.

Per Rule 1002.e.(1), Operator shall adequately construct and stabilize the entire well pad area, including cut and fill slopes, to control dust and minimize erosion, alteration of natural features, removal of surface materials, and degradation due to contamination.

Corrective Action _____

Date _____

1003a. Waste and Debris removed? _____

Comment _____

Corrective Action _____

Date _____

Unused or unneeded equipment onsite? _____

Comment _____

Corrective Action _____

Date _____

Pit, cellars, rat holes and other bores closed? _____

Comment _____

Corrective Action _____

Date _____

Guy line anchors marked? _____

Comment _____

Corrective Action _____

Date _____

- 1003b. Area no longer in use? _____ Production areas stabilized ? _____
- 1003c. Compacted areas have been cross ripped? _____
- 1003d. Drilling pit closed? _____ Subsidence over on drill pit? _____
- Cuttings management: _____
- 1003e. Areas no longer needed for drilling or subsequent operations for have been re-vegetated to 80% of pre-existing? _____
- Production areas have been stabilized? _____ Segregated soils have been replaced? _____

RESTORATION AND REVEGETATIONCropland

Top soil replaced _____ Recontoured _____ Perennial forage re-established _____

Non-Cropland

Top soil replaced _____ Recontoured _____ 80% Revegetation _____

1003e. INTERIM VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____ F _____

Comment

At the time of inspection the vegetated areas along the East and South sides of the location had a high coverage of List B CO Noxious weed, Musk thistle and Scotch thistle. During the inspection they were observed in both the flowering and rosette stage. See inspection photos for details.

Corrective Action

Operator shall control listed noxious weeds per Rule 1003.f.

Overall Final Reclamation ☐ Well Release on Active Location ☐ Multi-Well Location ☐**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: At the time of this inspection, no stormwater erosion issues were observed at the location or along the access road.

During previous inspections it was noted that sediment traps (ST) on the South and Southeast sides of the location were inadequate for potential stormwater runoff. At the time of this inspection the topsoil stockpile had been extended beyond the southern ST, therefore the only contributing stormwater would come from the stockpile. Since environmental conditions have changed staff believe the ST's to now be adequate. Should conditions change again the state of the ST's should be re-evaluated.

Corrective Action:

Date: **Pits:** ☐ NO SURFACE INDICATION OF PIT**Attached Documents**You can go to ECMC Images (<https://ecmc.state.co.us/weblink/>) and search by document number:
