General Comment:**ECMC Inspection Report Summary**

On Tuesday 10/15/2024, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus Mesa 24, at Location # 413481 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Methanol tank is lacking information
2. Open ended piping for thawing out dump lines on tanks and separators with exhaust from trucks.
3. Well signage lacking information and some are on the ground
4. Lack of battery signage

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
