Comment:	Weed debris in the form of tumbleweeds were observed along the boundary of the well location and on the irrigation berms of the well location. Tumbleweeds are a troublesome annual non-native weed that easily breaks off at the stem. Operator failed to control and manage weeds to prevent weed waste and prevent the spread of seeds onto adjacent lands.				
Corrective Action:	Comply with Rule 606 to remove weed debris.			Date:	11/05/2024

Comment

At the time of inspection it appears the Operator has performed interim reclamation activities to reduce disturbance areas only needed for production operations. Operator shall continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003. As a note to the Operator, once the wells have been plugged and the location is undergoing final reclamation the Operator shall remove all rock/gravel berms that were associated with the well location for irrigation purposes.

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment:

At the time of this inspection, no erosion issues were observed at the location or along the access road.  
  
Operator shall continue to monitor and manage this site for stormwater run on and runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004.
