Operator Comment: PROJECT IS NOT COMPLETE - This was also subject in the 2 hour meeting w enforcement. The roads on this project have been problematic in that the landowner wants them left in place for his hunting, farming and ranching operations. We started the Variance process in 2022. In our meeting with Mr. Hoak we agreed to restart that process and see if we can get to a resolution. There may be some patches that require some replant effort. We

are willing to do so in the spring. We have been asked to stay off that part of the property and we have done so .

OPERATOR COMMENT AND SUBMITTAL

Comment: Enforcement discussion was to restart the Variance process and if needed deal with the ground cover in the spring. All of the non-road areas were ripped, contoured, planted and stabilized in summer of 2022.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
