Coil operations, if needed, will be 24 hours or daylight hours – to be determined

Workover rig operations will be 24 hours or daylight hours – to be determined

Equipment Mobilization: In some cases, equipment such as tanks and an emissions control device (ECD) may be moved onto location up to a week prior to Move In Rig Up (MIRU) of the workover rig. This is conducted to allow for preliminary well work to be completed before a workover rig moves onto location, reducing the overall time that the workover rig is needed on location.
