**General Comment:**

CECMC Inspection/Audit Report Summary  
 On 01/28/2025 at approximately 14:06 hours, I, Compliance Specialist, Wayne Smelser  
 Conducted an on-site inspection/audit at QB Energy ASPEN RM 10-6C (F10E) Pad.  
 Location # 324224 in Garfield County Colorado.  
 Location is within High Priority/Density/NSO/Black Bear Habitat areas.  
 Location is approximately 183 yards from Dry Hollow Creek.  
 While there, I observed normal production operations.

During this inspection/audit the following compliance issues were observed:

- Housekeeping - Unused equipment on location with a CA date of 03/01/2025
- Equipment - Meter not calibrated annually with a CA date of 03/01/2025
- Equipment - PRV vent line does not comply with CECMC pressure safety device rules with a CA date of 02/06/2025

A follow up on this site inspection/audit needs to be conducted to ensure the compliance issues have been corrected to comply with CECMC rules.  
 This is a summary of inspection/audit report.

Any corrective actions from previous inspections/audits that have not been addressed are still applicable.
