General Comment:

On 1/17/2025, Western Reclamation Work Lead Trujillo conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain's HILLTOP 2F2 RANCH LLC-66S94W/33SWSW location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Good Housekeeping
- Interim Reclamation

Refer to the Location and Reclamation sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

1003 f. Weeds Noxious weeds? _____

Comment It was observed in this inspection that various trailers/vehicles, and other miscellaneous items, are being stored within the interim areas of the Location. This has impacted Operator's ability to comply with 1003 requirements. Additional reclamation/revegetation efforts will be required within these areas, and any other interim areas of the Location not progressing towards 1003 standards; to ensure a uniform, desirable perennial vegetative cover is established to comply with Rule 1003.e.

Corrective Action Conduct additional reclamation in accordance with ECMC 1003 series rules. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district. Comply with Rule 1002.f and implement erosion controls to stabilize the seeded soils. Continue to monitor and manage interim areas until Location receives a passing final reclamation inspection.
