Operator Comments:

This Sundry Notice is being submitted to modify the wellbore to accommodate the decreased setback distances allowed in Spacing Order 407-3684

The distance to the completed portion of the nearest well in the same unit on the "Spacing & Formation" tab is measured to the proposed Maverick 2W-20-02 . This distance was measured in 3-dimensional space.

Distance from the proposed wellbore to nearest existing or proposed wellbore belonging to another operator, including plugged wells was measured to the Simonsen 1L-421 (API 05-123-35976) - PDC Energy. This distance was measured in 3-dimensional space.

Attached as OTHER, is the anti-collision analysis which factors in three dimensional measurements as well as gyro surveys performed on the offset wellbores. All measurements provided in 3-dimensional space were derived from this analysis.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
