INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

Pursuant to COGCC Rule 911 a site investigation will be conducted pertaining to the WERNING 07-02B wellhead cut and cap and flowline removal. Approximately 2,270' of flowline will be removed. The COGCC will be updated in a supplemental Form 27 if a portion of the flowline is abandoned-in-place due to field constraints.

The wellhead was cut and capped per COGCC rules. One grab soil sample was collected for analysis by a certified laboratory for ECMC Table 915-1 compounds. One grab groundwater sample was collected and analyzed by a certified laboratory for all organic compounds per ECMC Table 915-1.

OPERATOR COMMENT

In response to ECMC Form 27 Comment dated 02/17/2025 (Document Number 404024732), Operator is submitting a replacement Form 27. Based on currently available data, this project is not affected by data integrity irregularities and is not associated with Operator's data integrity review process and its Rule 525.e. Voluntary Disclosure. As part of its data integrity review process, Operator requested the lab protect the laboratory analytical reports from subsequent unauthorized modification by anyone outside the lab, which resulted in the lab reissuing the original reports with additional protections (Reissued Report). The Reissued Reports were received directly from the lab and include a watermark confirming both the laboratory representative who reissued the report and the date and time of the reissuance. The metadata associated with this Reissued Reports also includes the lab representative's name, the date and time the laboratory reissued the report, and an explanation for the report reissuance. The Reissued Reports are attached to this submission.

In the event additional responsive information is received or discovered that would suggest this project should be incorporated into the ongoing data integrity review process associated with Operator's Rule 525.e. Voluntary Disclosure, Operator will update and/or amend the statements in this submission and provide any new or revised data or other information responsive to ECMC's general comments responding to Operator's Form 27 submission found in Document Number 404024732.

This form serves as a quarterly report. The flowline assessment will be submitted in a supplemental Form 27.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
