2<sup>ND</sup> NOTICE

RE: Surface Owners within ½ mile of our CBM well  
Request for Water Well Sampling as per "ECMC" COA from Document #404055607 and #404055807  
Water Well Receipt #0227872; #9089383  
SESW Sec. 23-32S-66W  
Las Animas County, Colorado

Dear Owners:

In accordance with the Colorado Energy and Carbon Management Commission ("ECMC") Conditions of Approval (COA) from Document #404055607 and #404055807, Evergreen Natural Resources LLC ("ENR") must attempt, subject to surface owner approval, to sample permitted water wells around our existing well-site for the **Angler 24-23TR and Vector 33-23 TR** well(s), as more particularly detailed in the rules and regulations.

ENR respectfully requests permission to do this "initial baseline" testing of your water well(s) referenced above. This testing requires that the well mentioned above be operational so that water may be retrieved from said wellbore. In addition, there will be follow-up sampling at intervals of 6-12 months and 60-72 months. Additional subsequent samples will be collected every 5-years thereafter following the earliest completion of the above mentioned well(s). Copies of all test results will be provided to the water well owner, the ECMC and Las Animas County within 3 months of collecting the samples. Such information will become public information associated with your property.

ENR respectfully asks the following questions (Please check all that apply):

- The above referenced water well is operational, and I grant ENR the permission requested to sample the above referenced water well - **Accept** ☒
- This water well in reference is **no longer in operation** - ☐
- I prefer **not** to have the water well referenced above sampled or tested - **Decline** ☐

Whichever your preference, please sign and return the original for our records at your earliest convenience. Please also include your phone number and email so that if sampling is accepted, and upon ENR's receipt of this letter, contact can be made to arrange for the sampling of the above referenced water well. This is a time sensitive exercise performed by ENR and therefore, it is respectfully requested that you contact us within 14 days of the date of this letter. Sampling will be scheduled at that point and will need to be conducted in a timely manner. If no correspondence is received within that 14 day window or sampling appointment cannot be scheduled in a timely manner, ENR has the right to forego sampling on the above referenced well. A copy of this form is included for your records as well.

Thank you for your assistance in this matter. Should you have any questions or concerns with respect to this request, please do not hesitate to contact me at 719-846-7898 or 719-220-4330.

Sincerely,

*Will be on site starting June 22 2025  
Power is not on prior to that time*

Timothy Fernandez  
Regulatory Compliance Supervisor, Evergreen Natural Resources LLC

Signed this 18 day of April, 2025 to indicate preferences of the water well(s) on my property as referenced above.
