Comment:

This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within 12 months of plugging on non-cropland. Well was plugged 09/18/2023. It does not appear any reclamation work has been performed as road base remains throughout the access road and well location, which do not appear to have been graded or contoured. Derbis and equipment (e.g. utility poles, guy line anchors, cattle guard) do not appear to have been removed from the location and surrounding areas. Final reclamation activities are required on all disturbance areas. Refer to attached inspection photos.

Corrective Action: **Perform reclamation in accordance with Rule 1004.**
