Taylor,

The Orphan Well Program has submitted Form 6s to P&A 5 wells in Jackson County, Section 12 9N78W, and it is noted that the wells are located within a Rule 1202.c NSO Habitat: Greater Sage Grouse Priority Habitat Management Area (PHMA). This HPH requires consultation prior to any plugging and abandonment operations. The location is also within Elk Severe Winter Range HPH.

The Orphan Well Program plans to begin work on July 1, 2025, operating during daylight hours and each well should take 4 days to plug.

The Following wells are included in this review:

Doc # 404191665 Gils Hot Oil Service STATE 3-X (API 05-057-06374) Located: 40.762260 / -106.106210

Doc # 404192445 Gils Hot Oil Service STATE 5 (API 05-057-06139) Located: 40.760820 / -106.105940

Doc # 404192601 Gils Hot Oil Service STATE STATE 12-2 (API 05-057-06281) Located: 40.759270 / -106.103220

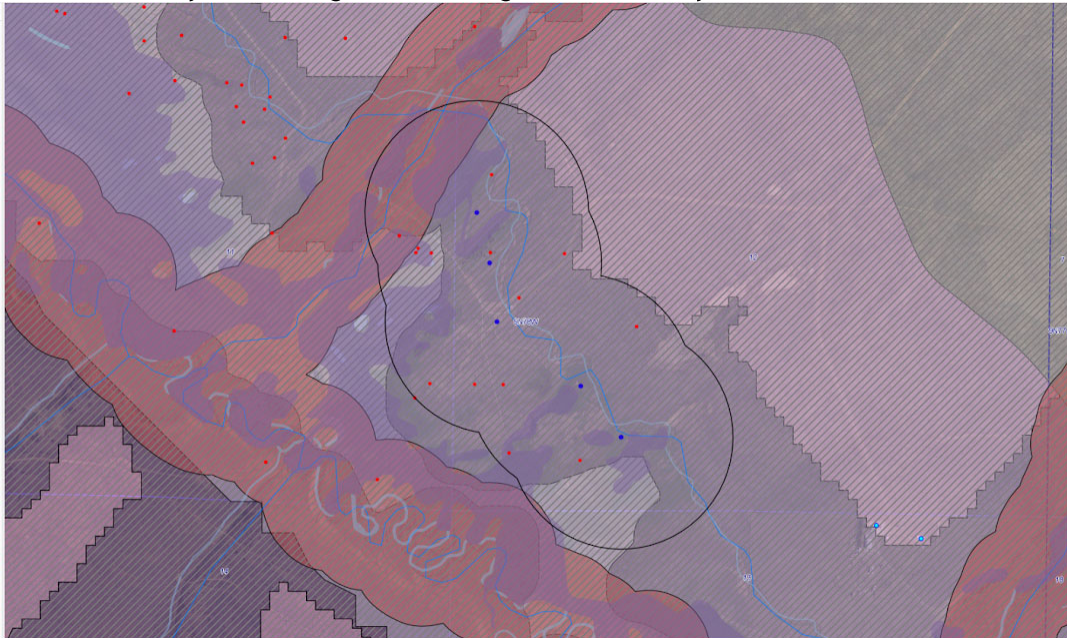

Doc # 404192499 FAHEY OIL & GAS STATE STATE 12-1 (API 05-057-06280) Located: 40.763493 / -106.106637

Doc # 404192539 FAHEY OIL & GAS STATE 12-7 (API 05-057-06369) Located: 40.758033 / -106.101897

ECMC staff has the following BMPs/COAs on record as they pertain to these HPH:

This oil and gas location is within CPW-mapped Greater Sage-Grouse Priority Habitat Management Area (PHMA). CPW recommends that disturbance activities occur outside the period from March 1 to July 15 to protect the lekking, nesting, and brood-rearing periods for greater sage-grouse.

Please advise if you find it agreeable to begin P&A work July 1.

--Thank you!

Renee Wild

Hi Renee,

As I indicated in my previous email, we have no concerns with the P&A plan that is being proposed. We support this work, and don't have any additional recommendations outside the daylight hours restriction. Please let me know if you have any questions.

Thanks!

Thanks, Renee. No worries - I'm including her as we might have some shifting in our duties with Dani taking more of these consultations. TBD, but if you can include her that'd be great.
