1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

During this inspection, it was observed that the former access road does not appear to have been reclaimed with evidence of road base material and the presence of CO List B Noxious Weed (Musk Thistle) observed along the former access road. Additionally, there are three groundwater monitoring wells in close proximity to the well location that are still installed. However, the well location appears to be progressing towards reclamation standards with vegetation reflective of the reference areas. All surface equipment and road base material will need to be removed and noxious weeds will need to be managed for. Refer to attached inspection photos.

Corrective Action: **Perform reclamation in accordance with Rule 1004.**

Date _____

Overall Final Reclamation **Fail**

Well Release on Active Location ☐

Multi-Well Location ☐

Storm Water:
